# PCO-0 SERIES OPERATION VEST

## PCO-0 SERIES OPERATION VEST

**PCO-0105**

The PCO-0 series tactical operation vests have been developed as part of our new modular configuration concept for military use. It is a special vest with a special design for better operational safety, suitable for use in all conditions. It provides III-A level protection without a plate. It can be produced in different color configurations according to the needs.

The front of the vest has customizable areas such as magazine, bomb compartment, weapon sling attachment hooks, medical kit compartment, and the back compartment is designed to carry and connect a backpack or water bag. The shoulder and side attachment points allow for easy donning and doffing. There are compartments suitable for carrying ballistic plates on both sides.

## PCO-U SERIES TANK TOP BODY ARMOR

The PCO-O series tactical operation vests have been developed as part of our new modular configuration concept for military use. It is a special vest with a special design for better operational safety, suitable for use in all conditions. It provides III-A level protection without a plate. It can be produced in different color configurations according to the needs.

The front of the vest has customizable areas such as magazine, bomb compartment, weapon sling attachment hooks, medical kit compartment, and the back compartment is designed to carry and connect a backpack or water bag. The shoulder and side attachment points allow for easy donning and doffing. There are compartments suitable for carrying ballistic plates on both sides.

## PCO VIP BALLISTIC VESTS

PCO VIP is a vest of exceptional quality designed as a unique solution for executive and VIP protection. This vest is ideal for politicians, business people and covert security applications. Providing III A level protection, the special vests are designed to be comfortable and convenient for everyday use. With its stylish look, it is available in different colors that you can wear with any of your outfits.

# VIP

# HELMETS

The Modular Integrated Communications Helmet (MICH) helmet is a new way forward for the military's special forces community. Designed to meet the modern realities for militaries on the battlefield, with an emphasis on weight-saving and performance characteristics, the MICH helmet delivers all counts with superb design and functionality.

Full special ops coverage with enhanced awareness due to reduced profile and higher cut offer you a full range of versatility without compromising any advantages. Also comes with side rails for shroud accessories so you can perfectly setup your ballistic helmet based on your mission's needs.

## ARMORED STELL PLATE

The ballistic protection steel with high hardness Ramor™ 500 is a ballistic protection steel of high hardness, available in thicknesses of 2-30 mm [0.079-1.18"] and hardnesses of 490-560 HBW. Ramor 500 is available as cut-to-length sheet in thicknesses of 2-6.5 mm [0.079-0.256"] and as plate in thicknesses of 6-30 mm [0.236-1.18"]. Delivered in quenched condition, Ramor 500 is not intended for further heat treatment.

### Technical Specifications

**Product Name:** Armored Steel Plate

**Thickness:** 6.5mm

**Weight:** 3.2 kg net

**Product Dimensions:** 250mm x 300mm

**Coating:** Made of Polyurethane

**Carton Box:** 5 steel plates are available

**Carton Box Weight:** 17 kg gross weight

## ARMORED STELL PLATE

Using next generation UHMW polyethylene fabric together with carbon fiber reinforcement at the backing and state of art hot presses boron carbide ceramics at the strike face, we have the lightest hard armor plates in the market.

## TACTICAL BOOTS

The boots are made of breathable nubuck leather with water repellent properties. Suitable for daily, outdoor, operational and tactical operations. Thanks to its high water resistance and breathable, durable 100% polyester knit fabric, it is a product that you can use for a long time in all seasons. It can be easily put on and taken off thanks to its lace-up and zipper closure. It offers comfort and convenience together with its lightweight design and shock absorbing structure.

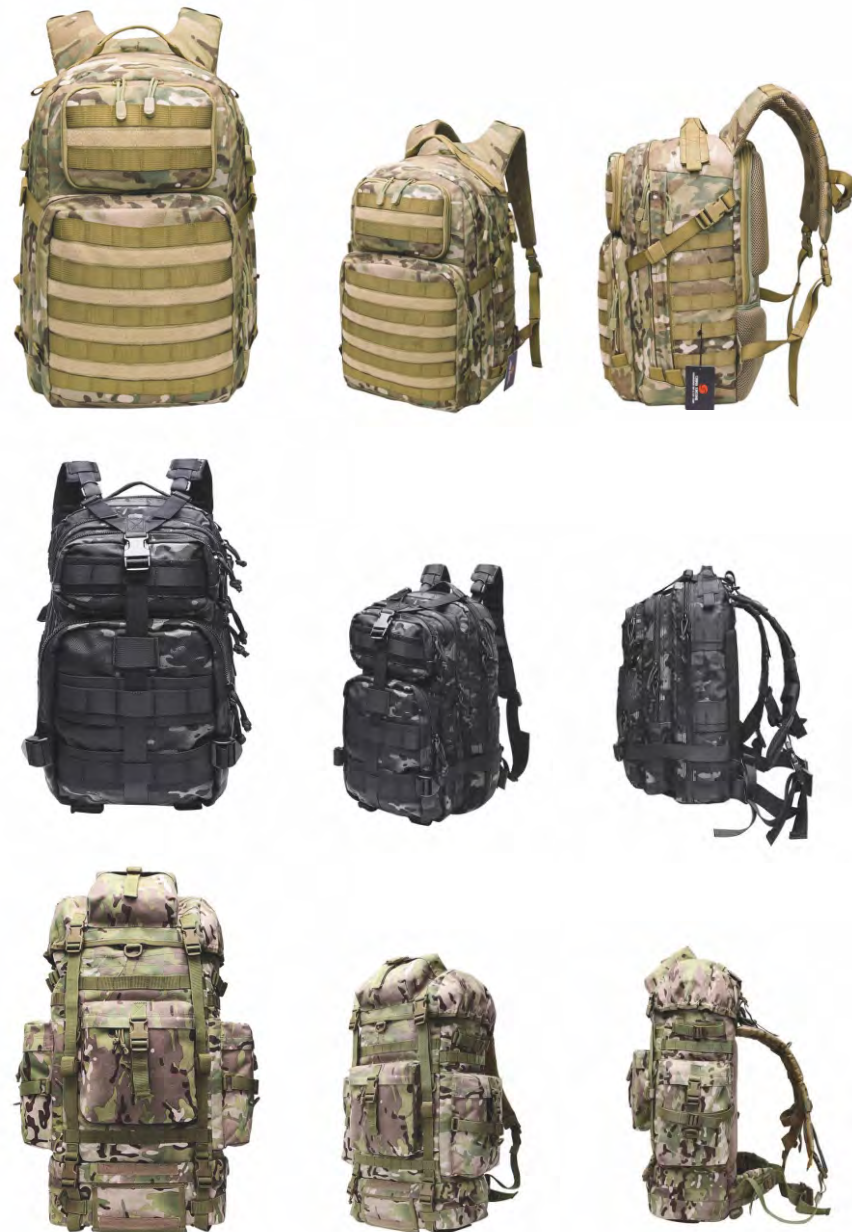

# TACTICAL EQUIPMENT

## BACKPACKS

Backpacks were specially designed for infantry combatants, offering multi-purpose backpacks for short, mid or long-distance tactical marching operations. These packs were designed to include our weight distributing patented system, which balances the weight of the bag between the shoulders and the waist with nominal 30% to the shoulders and 70% to the waist. For that they are highly recommended for use by infantry soldiers.

## HYDRATION SYSTEM

High performance 2,5L hydration reservoir system. Exclusive 3 layer coextruded Polyethylene construction with Taste-Free™, low maintenance, Glass-Like™ liner. Integrated Grunge-Guard™ antimicrobial.

### TASTE-FREE® System

Co-extruded PE film retains pure liquid taste with no plastic flavor. BPA and phthalate free.

### Grunge-Guard® Technology

Inhibits bacteria growth on reservoir and drinking tube surfaces for the life of the system. Technology utilized FDA-approved and EPA-registered anti- microbial agent.

### Easy Care & Low Maintenance

For use with water, clean by simply rinsing the system and hanging it opened until dry. For use with energy drinks or sweetened liquids, follow the cleaning instructions in the attached care and maintenance booklet.

Hi-Flow Storm-Valve® No-bite, push-pull valve with integrated shut-off mechanism. Like drinking with a straw. Easy disassembly for cleaning. Angled Valve Turned 360 degrees for perfect valve/mouth orientation. Allows tube to be 25cm shorter. Less excess tube bouncing around the chest! Dirt-Shield® Protective Cover-No more dragging in the dirt! Keeps valve free of dirt and protected. QMTTM Additional In line QMTTM Quick Connector at the tube extremity, allows connection of filter, UTATM or other accessories with the push of a button. CoolWeaveCoverTube Insulates and blocks UV-light. Water stays cool and Inhibits bacteria growth from first to last sip.

## FIRST AID BAG - MINI

It can be useful at the shooting range or put together as part of a tactical load out. This utility pouch is used by military personnel, EMT, police, firemen, and by responsible civilians as an easily accessible and necessary component for first aid needs. But it's also a featured accessory for hikers, campers, and other outdoor enthusiasts to carry first aid supplies to treat bites, wounds, and any other injuries fast and at a moment's notice.

### Bag Contents

# GASMASKS

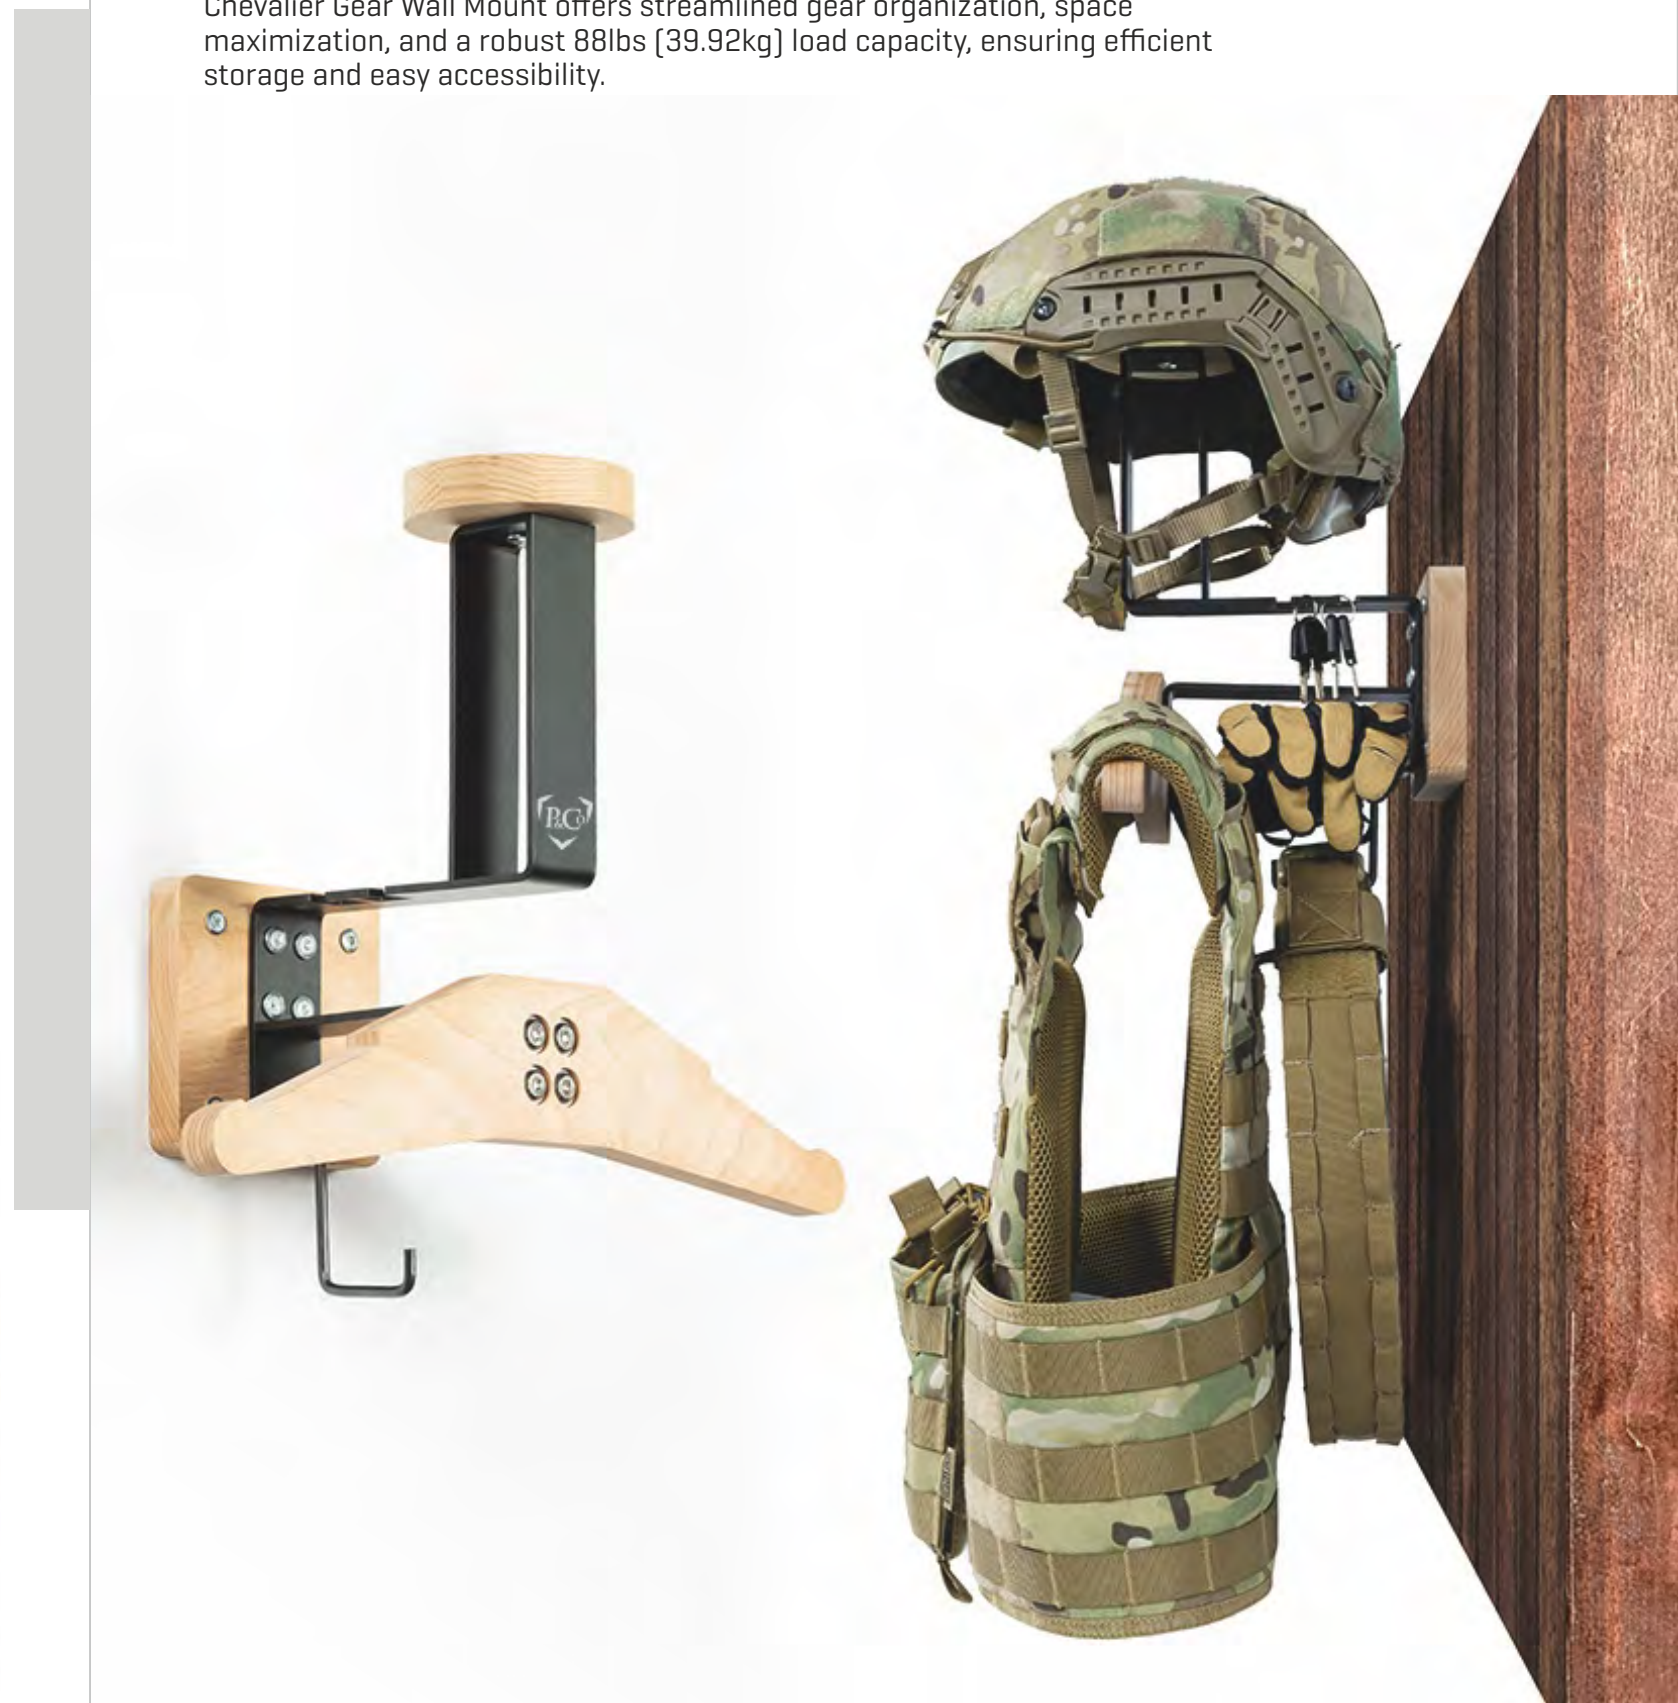

- The silicone body is temperature resistant (300 °C high temperature, -45 °C low temperature) without deformation, ensuring air tightness
- The silicone headband is flexible and resistant to bending,
- Silicone gasket to ensure that the filter element and the mask fit closely
- Passed the professional inspection and obtained CE certification
- 5-point headband is adjustable to reduce the stress on head, suitable for different head sizes
- Double air inlets for smoother breathing
- Elastic silicone band, no press on the face during long time wear
- Lightweight design, no pressure to wear for a long time
- Separation of air flow in and out, dual breathing channels, cold flow valve design, quickly exhaust the hot air generated by breathing

# TACTICAL GEAR WALL MOUNT

Chevalier Gear Wall Mount offers streamlined gear organization, space maximization, and a robust 88lbs [39.92kg] load capacity, ensuring efficient storage and easy accessibility.

## HOLSTERS

- Compatibility with all makes and models
- Classic leather and tactical plastic cases
- Leg, back straps, tactical equipment
- Special designs suitable for military uniforms

## AK47 UPGRADE KIT

Your AK47 is the workhorse of the combat world. Being the most commonly used tactical rifle on the planet, its basic design and function do not need to be questioned. But it is just that basic. Take your basic AK47 platform and customize it to make it both the ultimate in reliability and tactically optimal for you.
